REINIER MARISCOTES

Computer Engineer

About Me

I'm Reinier Mariscotes, a fresh graduate in Computer Engineering with skills in Front-End Development, including Next.js, ReactJS, and SEO. I specialize in building dynamic web applications while integrating my knowledge of cybersecurity and front-end design to deliver meaningful projects. As an aspiring full-stack developer, I also have experience with Android Studio.

EXPERIENCE

Front End Developer
LRY Marketing- Australia
June 2024-Present

 I created a responsive Database UI with Next.js and Tailwind CSS, featuring smooth scrolling and interactive components. The site includes a contact form for potential clients and employers.

Search Engine Optimization
LRY Marketing- Australia
March 2024-Present

As an SEO for LRY Marketing, I optimize websites to enhance search engine rankings, drive organic traffic, and improve online visibility. I focus on keyword research, content strategy, and technical SEO to boost performance and achieve marketing goals.

EDUCATION

Technological Institute of the Philippines
Bachelor of Science in Computer Engineering
2018-2024
